

PRODUCT INFORMATION

Reference : FD-010-158

Technologies : Mifare Plus

DESCRIPTION

Mifare® Plus proximity keys are waterproof as they are IP68 certified and have a high shock resistance thanks to the IK08 certification. The keys have a metal ring for easy transport on a key ring. In addition, the unchangeable 8-digit hexadecimal code engraved on the back allows for uniqueness, programming and easy identification of the keys.

The keys can be personalised by silk-screen printing or by moulding the shell.

The proximity keys are compatible with all 13.56 MHz FDI readers and are recommended for use with the Easy Door Controller access control system.
