

PRODUCT INFORMATION

Reference : FD-010-175

Technologies : 13.56MHz, Mifare Plus

DESCRIPTION

The ISO cards have a unique serial number and are all coded directly in our production plant in Cholet.

The keys can be personalised with a logo and/or photo.

The Mifare® Plus chip integrated in the card guarantees its uniqueness and prevents cloning thanks to its 128-bit AES encryption and the FDI control units/readers.

Thanks to its compatibility with the majority of 13.56 MHz Mifare® Plus FDI readers, the FD-010-175 cards are recommended for use with the EasyDoor, iPassan and Transit+ systems.

KEY CHARACTERISTICS
