

## PRODUCT INFORMATION

Reference : FD-010-200

Technologies : Mifare Plus

## DESCRIPTION

Certified IP68 and IK08, the proximity keys are waterproof and highly shock resistant. The keys have a practical metal ring to put them on the key ring. The code engraved on the back of the badge simplifies identification and programming. Also, the proximity keys have a non-changeable code of 14 alphanumeric terms.

Thanks to its AES128 bit encryption and the central unit / FDI reader pair, this key can never be cloned: its Mifare Plus chip guarantees its uniqueness.

The FD-010-200 proximity keys are compatible with all 13.56 MHz Mifare® Plus FDI readers and are recommended for use with Easy Door, iPassan and Transit+ systems.

## KEY CHARACTERISTICS

- Black
- Size (L X H X P): 49mmx36mmx7mm
- IP68 – IK08 certified
- 14-character alphanumeric number etched
- Counterbored to prevent number from being erased
- Operating temperature : -10°C to + 60°C
- NB: the key ring is not included
