PRODUCT INFORMATION

Reference : FD-500-488

DESCRIPTION

Do you need to manage a notice board located in a building hall, a meeting room or a shopping centre?

Thanks to this HDMI interface, you can transform any monitor into an IP notice board that you can update remotely. Once the interface installed, just log on to www.ipnoticeboard.com and manage communications across all notice boards from your office.

You can display:

- Images (JPG, JPEG, PNG),
- Videos (AVI, MPEG, WMV),
- Texts from PowerPoint, Excel or Word presentations, PDFs and texts edited in the software.

ECONOMIQUE et **ECOLOGIQUE** : plus besoin de papier ni de se déplacer sur site !
