

## PRODUCT INFORMATION

**Reference :** FD-603-003

**Protocols :** 2 wires

## DESCRIPTION

To enable remote management of your intercom system, the 2VOICE board has been specially designed to be associated with the iPassan central.

The reliable integrated 2VOICE technology and more, allows the deck to offer users all the benefits of 2VOICE.

To build the bridge between the board and the iPassan system, the 2-SMART reader has been integrated. A camera, a voice synthesis, a 12-button keypad and a loop for the hearing impaired also make up this door station.

The door station is fully compliant with the Disability Act.

## MAIN FEATURES OF THE 2-SMART DOOR STATION
