BLACK ZAMAK – 2-SMART – DOOR ENTRY PANEL

PRODUCT INFORMATION

Reference : FD-603-053

Protocols : 2 wires

DESCRIPTION

To enable remote management of the intercom system, the 2VOICE board has been manufactured and combined with the iPassan control unit.

The board offers many advantages to the user as it is equipped with the integrated 2VOICE technology which guarantees reliability and more.

The integrated 2-SMART reader builds the bridge between the deck and the iPassan system. The deck is equipped with a camera, voice synthesis, a 12-key keypad and a loop for the hearing impaired.

The turntable is compliant with the Disability Act.

MAIN FEATURES OF THE DECK
