PRODUCT INFORMATION

Reference : GB-010-228

Technologies : Mifare Plus

DESCRIPTION

The proximity keys are waterproof and shockproof: they are certified IP68 and IK08. A metal ring makes the key very practical for hanging on a key ring. The key is identifiable and programmable by the engraving of its code on the back. In addition, the keys have a non-changeable code of 14 alphanumeric terms.

Thanks to its Mifare® Plus chip, the uniqueness of the key is guaranteed. In addition, this key cannot be cloned as it has AES128 bit encryption and is associated with FDI control units and readers.

The FD-010-200 proximity keys are compatible with all 13.56 MHz Mifare® Plus FDI readers and are recommended for use with Easy Door, iPassan and Transit+ systems.

KEY CHARACTERISTICS

- Blue
- Size (L X H X P): 49mmx36mmx7mm
- IP68 – IK08 certified
- 14-character alphanumeric number etched
- Counterbored to prevent number from being erased
- Operating temperature : -10°C to + 60°C
- NB: the key ring is not included
