

PRODUCT INFORMATION

Reference : GB-010-229

Technologies : Mifare Plus

DESCRIPTION

Waterproof and shock resistant, the FDI red proximity keys are IP68 and IK08 certified. They are equipped with a metal ring and a non-changeable code of 14 alphanumeric terms. This code is engraved on the back of the keys for easy programming and identification.

The Mifare® Plus chip, AES128 bit encryption and the FDI central unit/reader combination guarantee the uniqueness of the proximity keys and prevent their cloning.

The GB-010-229 proximity keys are compatible with all 13.56 MHz Mifare® Plus FDI readers and are recommended for use with Easy Door, iPassan and Transit+ systems.

KEY CHARACTERISTICS

- Red
- Size (L X H X P): 49mmx36mmx7mm
- IP68 – IK08 certified
- 14-character alphanumeric number etched
- Counterbored to prevent number from being erased
- Operating temperature : -10°C to + 60°C
- NB: the key ring is not included
