

PRODUCT INFORMATION

Reference : GB-010-278

Technologies : Mifare Plus

DESCRIPTION

The proximity keys are IP68 and IK08 certified (waterproof and highly shock resistant). They have a metal ring for hanging on a key ring and contain an unchangeable code of 14 alphanumeric terms. This code is engraved on the keys to make programming and identification easier.

These keys are equipped with a Mifare® Plus chip that ensures their uniqueness and prevents cloning thanks to AES128 bit encryption associated with access control units and FDI readers.

The GB-010-278 proximity keys are compatible with all 13.56 MHz Mifare® Plus FDI readers and are recommended for use with Easy Door, iPassan and Transit+ systems.

KEY CHARACTERISTICS

- Yellow
- Size (L X H X P): 49mmx36mmx7mm
- IP68 – IK08 certified
- 14-character alphanumeric number etched
- Counterbored to prevent number from being erased
- Operating temperature : -10°C to + 60°C
- NB: the key ring is not included
