PRODUCT INFORMATION

Reference : GB-140-170

Protocols: 2 wires

Technologies : Mifare Plus

EASY DOOR STARTER KIT – 1 P40 READER + 1 ENCODER + 10 KEYS/PASSES

DESCRIPTION

Thanks to the Easy Door starter kit, you have all the material necessary for a first installation, since this kit is composed of :

- An Easy Door Controller
- A P40 reader
- A USB encoder
- 10 Mifare® Plus keys (assorted colours)

For access control you will need a control unit and its reader. The encoder, on the other hand, will be used to encode the keys remotely so that they can only operate on the desired doors.

The encoder is supplied with its USB cable and is automatically recognized by your PC. The free online programming software at www.easydoorcontroller.com is up-to-date and securely accessible from a distance.
