

Hermetic luminaire VANTA 1x120cm for T8 LED ABS/PS

A modern hermetic luminaire for T8 LED fluorescent lamps, designed for durability and efficiency. Made from high quality materials, it features a robust construction. The luminaire is compatible with energy-efficient T8 LED fluorescent lamps powered from one side. Installation is simple - the luminaire is connected directly to the 230V mains. With an IP65 rating, the luminaire is perfectly protected against dust and water jets, making it an ideal choice for demanding environments. This versatile luminaire will work well in workshops, garages, production halls and other industrial facilities. Its resistance to harmful outdoor conditions and water resistance guarantee reliable performance even in the most demanding locations. The luminaire is equipped with standard G13 sockets, allowing easy connection of T8 LED fluorescent lamps powered from one side. This solution provides flexibility in the choice of light sources, allowing lighting to be optimised to specific needs.

Voltage range and voltage type

Ambient temperature suitable for operation

Parameter	Value
Socket type	G13
IP protection rating	65
Warranty (years)	3
Weight	740 g
Mounting type	surface
Supply voltage range and voltage type	AC 220-240V
Frequency of the supply voltage	50/60Hz
Material (cover)	polystyrene
Material (housing)	ABS
Ambient temperature suitable for operation	-10÷40 °C

Parameter	Value
For indoor and outdoor use	YES
IEC protection class	II
IK protection rating	06
Full box quantity	15 pc
Length	1295 mm
Width	60 mm
Height	70 mm
Product weight with packaging	920 g
Master carton weight (kg)	13.8

Single packaging

Bulk packaging

Outer box quantity

15 pcs.

Europallet
