

VANTA hermetic luminaire for T8 fluorescent lamps 1x150cm T8 LED ABS/PS

Modern hermetic luminaire for T8 LED fluorescent lamps, designed with durability and efficiency in mind. Made of high-quality materials, it is characterized by a solid construction. The luminaire is compatible with energy-saving T8 LED fluorescent lamps powered on one side.

Installation is simple - the luminaire is connected directly to the 230V mains. Thanks to the IP65 tightness class, the luminaire is perfectly protected against dust and water jets, making it an ideal choice for applications in demanding environments. This versatile luminaire will work great in workshops, garages, production halls and other industrial facilities. Its resistance to harmful external conditions and waterproofness guarantee reliable operation even in the most demanding locations.

The luminaire is equipped with standard G13 sockets, enabling easy connection of T8 LED fluorescent lamps powered on one side. This solution provides flexibility in the selection of light sources, allowing you to optimize lighting for specific needs.

Voltage range and voltage type

IEC protection class

Material (housing)

Ambient temperature suitable for operation

IK protection rating

IP protection rating

Parameter	Value
Socket type	G13
IP protection rating	65
Warranty (years)	3
Weight	966 g
Mounting type	surface
Supply voltage range and voltage type	AC 220-240V
Frequency of the supply voltage	50/60Hz
Material (cover)	polystyrene
Material (housing)	ABS
Ambient temperature suitable for operation	-10÷40 °C

Parameter	Value
For indoor and outdoor use	YES
IEC protection class	II
IK protection rating	06
Full box quantity	15 pc
Length	1570 mm
Width	70 mm
Height	60 mm
Product weight with packaging	1200 g
Master carton weight (kg)	18

Single packaging

Bulk packaging

Outer box quantity

15 pcs.

Europallet
