

19450031

Strong points

- Excellent accuracy
- Secure locking
- Installation

General characteristics

- Paired with DIRIS A-30, A-41, A-60, Q800, COUNTIS E4X, COSYS and ATyS C65.

Compliance with standards

- IEC 60529
- IEC 61869-10
- UKCA

Access to resources (ex: manuals)

RGW flexible current sensors measure load currents and are especially suitable for existing installations. RGW sensors have an extended measurement range up to 5000 A and a 6-diameter opening to provide the measurement solution to best meet your needs. It is possible to transmit the measurement signal to the counters and monitoring devices with 1A input(s).

*only compatible with the addition of the RAC-1A integrator

Technical Characteristics
