urmet

GATE-UP MA IP/radio gateway, Yokis UP Zigbee system and Radio Power, to manage the system locally and remotely via YnO UP app.

- Power supply: USB DC 5V to 5.25V 2A

  - Radio protocol: Zigbee and Yokis Radio Power
  - Radio frequency band: 2400.0 - 2483.5 MHz
  - Maximum transmitted radio power: 10 mW
  - IP network connection: Ethernet RJ45 or Wi-Fi 2.4GHz and 5GHz
  - Ambient temperature: -20°C to +40°C
  - Relative humidity: 0 to 90%
  - IP protection rating: IP30
  - Installation: tabletop or wall-mounted

Description

GATE-UP is the IP/radio Zigbee gateway in the Yokis UP range that allows the Yokis UP system to be connected, enabling it to be controlled remotely via the YnO UP app, to carry out voice commands via Alexa and Google Assistant, to define scenarios, and to activate security, camera and alarm system functions.
Via the integrated Zigbee radio, it can directly control devices from the Yokis UP range, so the devices are isolated from the Internet and the security of the system is not compromised.
Not only that, thanks to Radio Power support, it also allows devices from the Yokis Radio Power range to be managed, guaranteeing backward compatibility, and thus the possibility of future integrations, to existing Yokis Radio Power systems.
