

PRODUCT INFORMATION

Reference : GB-010-012

Technologies : 125 kHz

DESCRIPTION

Waterproof and shock resistant, the grey FDI 125 kHz proximity keys are IP68 and IK08 certified. To make them easier to carry, they have a metal ring that can be used as a key ring.

The uniqueness of the keys is guaranteed as they all contain an unchangeable code of 8 hexadecimal terms. This code is engraved to simplify programming and key identification.

The keys can be personalised by silk-screen printing or by moulding the shell. In addition, the GB-010-012 proximity keys are compatible with all 125KHz FDI readers.

KEY CHARACTERISTICS

- Grey
- Size (L x l x Ep): 49 mm x 3 6mm x 7 mm
- IP68 – IK08 certified
- 8-character alphanumeric number etched
